SEEDS

THE CHAS. C. HART
SEED COMPANY

WETHERSFIELD, CONN.
NEWPORT, MAINE

A Discount For Early Orders

To ease the spring burden on our office force we will allow the following discount from our catalog price.

On every order mailed to us before March 15th, where cash accompanies the order, you may deduct 5% of the total of the order when you make your remittance.

A Discount For Quantity Orders

In addition, we believe that the customer who orders a large quantity of seeds is entitled to a little better price than the man who orders only a small quantity.

So—on all orders amounting to more than \$10.00 at the catalog price you may deduct 5%; if over \$25.00 you may deduct 10%. These discounts apply only where cash accompanies the order and do not apply to credit orders, nor do they apply to the total amount remitted for two or more orders sent in during the season.

This discount for quantity orders is in addition to the discount for early orders.

DIRECTIONS FOR ORDERING

Please use order sheet in the back of the catalog. It will be of great help to us in filling your order quickly and correctly. Be sure to fill in your full name and address. If your order is to come by freight or express please write in your freight or express station if different from your Post Office.

Please keep a copy of your order. Many customers complain they have not received goods they have not ordered at all. At any rate, it is always wise to check over your order. If we have made a mistake (we sometimes do) we want to rectify it immediately.

How to send money. Remittances may safely be made by Post Office or Exress Order, Bank Draft, Check or Registered Letter. We will accept stamps for sums less than one dollar. If bills are sent, always register the letter.

We guarantee the safe arrival of all orders. There is no need to send insurance money. We will take care of that.

24 Hour Service. All orders are filled the same day as received, except in the case of seasonal goods which will be sent when the weather permits.

Our Guarantee—We guarantee to the full amount of the purchase price:

The purity and quality of all seeds you buy from this catalog. Should failure result from any fault of the seed, you can have your money back.

However, this is the limit of our liability. Seeds are subject to so many climatic and soil conditions over which we have no control that:

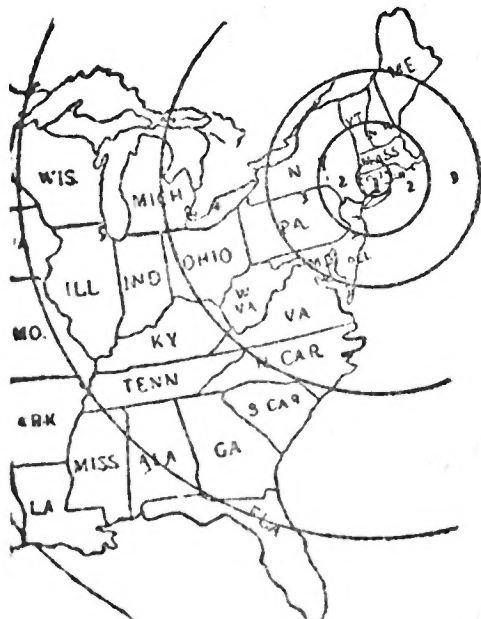

We give no warranty, express or implied as to quality, description, productiveness or any other matter of any seed we sell and will be in no way responsible for the crop. If the purchaser does not accept the seeds on these terms, they are to be returned at once.

Seeds by Parcel Post

Packages weighing 70 pounds can be sent into the first three zones and 50 pounds may be sent anywhere in the country.

We send Prepaid by Parcel Post all orders for the so-called small seeds. Peas, Beans, Corn, Onion Sets, Asparagus Roots, etc., are Not Prepaid, and the customer must remit postage for these with the order. We will pay transportation charges, however, on Peas, Beans, Corn and Onion Sets if your total order amounts to \$20.00 or more.

The Parcel Post rates are as follows:

Weight	1st and 2nd zone up to 150 mi.	3rd zone up to 300 mi.	4th zone up to 600 mi.	Weight	1st and 2nd zone up to 150 mi.	3rd zone up to 300 mi.	4th zone up to 600 mi.

Our New Recleaning Plant at Newport, Maine

Dear Friends:

Above we present a view of our newly opened warehouse and cleaning plant at Newport, Maine, through which pass nearly two million pounds of seed annually. This is one of the most efficiently arranged, and modernly equipped plants in the country and was built and designed to furnish our critical trade with seeds of still higher purity and quality.

We personally own and operate a stock seed breeding farm of 257 acres at Corinna, Maine, where every pound of seed placed out for increase is grown. In this area of the cold, frosty northern country, we harvest the product of over 1500 acres of seed crops. Thus, the cycle of high test seed stocks is completed.

- 1. Parent strains of known performance, grown under our own supervision.*
- 2. Increase plots, grown under favorable conditions and frequently inspected.*
- 3. Seed stocks, efficiently recleaned and carefully hand-picked.*
- 4. Your orders filled with care, from pure-bred, high test seed only.*

The result must be and is; seeds that are earlier, hardier and more productive.

We are grateful for your kind orders in the past and look forward to a continuance of your favors.

With best wishes for a successful and prosperous year, we are

THE CHAS. C. HART SEED CO

FRANK S. HART

FREDERICK C. HART

ASPERGE

ASPARAGUS SEED

SPARAGIO

One ounce to 800 plants, four pounds per acre.

Mary Washington—Absolutely rust resistant. A very strong grower with thick, heavy dark green tips. Pkt. 10¢; Oz. 15¢; ¼ lb. 35¢; 1 lb. \$1.00.

ASPARAGUS ROOTS

Mary Washington—(1 year old) 50 for 85¢; 100 for \$1.50; 1000 for \$12.00. Not postpaid. (Weight 100—10 lbs.; 1000—70 lbs.)

Artichaut

ARTICHOKE

Articiocca

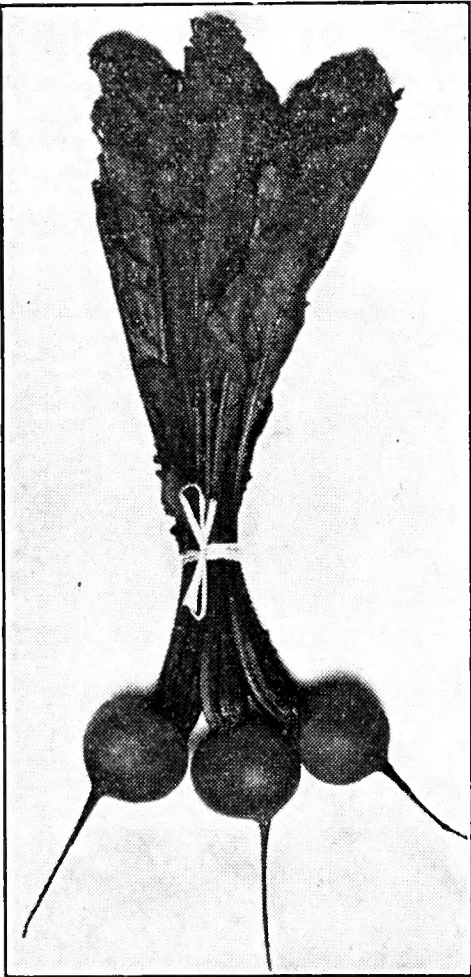

Green Globe—The Standard variety. Pkt. 10¢; Oz. 15¢; ¼ lb. \$1.25.

BETTERAVE

BEETS

BARBABIETOLA

One ounce to 100 feet of drill; 10 pounds to the acre.
Our uniform strains of Beet are the finest on the market.

Perfected Detroit Beet

All Beets 10¢ per pkt.;
15¢ per ounce.

Hart's Early Wonder—The finest available early bunching Beet. Our splendid selection of this desirable early variety is unsurpassed and we confidently feel that no other strain offered can approach it for uniformity of size, shape and deep bright red color.

(AAS) Perfected Detroit—A perfect globe-shaped strain of the old type Detroit, growing slightly smaller but earlier with small tops and fine tap roots. The skin is deep red and the flesh is solid red without zoning or light-colored rings, a truly remarkable selection.

New Bravo—Surprising uniform roots of the Detroit type, but considerably earlier, smoother skinned than any other variety and free from all fibers. Very deep, dark red flesh without the slightest trace of zoning and very sweet and sugary. This is the finest of all Detroit selections and we recommend it without hesitation.

Early Red Chief—Earliness and color are the two greatest factors in this remarkable selection from Dark Red Crosby. This is the fastest growing and earliest of all Beets and is a deep dark red all the way through, without zoning. Beat the market and earn extra profits with this wonderful new extra early variety.

(AAS) Perfect Model—A deep globe Detroit type with extremely tender skin and flesh. Its very dark crimson color and uniform good shape and color mark it as the finest for home gardens and the quality market trade. Originator's strain.

	¼ lb.	1 lb.	10 lbs.
Hart's Early Wonder—Finest of bunching Beets.....	\$0.30	\$0.90	\$8.00
Perfected Detroit—A perfect strain.....	.35	1.00	9.00
New Bravo—Earliest Detroit type.....	.40	1.40	13.00
Early Red Chief—Earliest of all Beets.....	.45	1.60	15.00
Crosby's—The popular dark red type. Preferred by many gardeners	.30	.90	8.00
Early Blood Turnip—An old standby with large flat roots.....	.30	.80	7.00
Detroit Dark Red—The finest for summer and fall bunching.....	.30	.90	8.00
Perfect Model—Most perfect shape. Delicious flavor.....	.40	1.50	14.00

(AAS) Little Marvel—The most refined type of Flat Egyptian yet offered with a deep attractive violet-red color and a small top and tap root. This fine, high quality Beet is one of the earliest grown and should be the first one sown in the garden or market field. ¼ lb. 40¢; 1 lb. \$1.35; 10 lbs. \$12.50.

(AAS) Canner—Another highly desirable Detroit type with slight inside zoning and deep red skin particularly adapted for canning because of its delicious quality and uniform globe shape. We recommend this fine Beet highly. ¼ lb. 40¢; 1 lb. \$1.35; 10 lbs. \$12.50.

Poiree	SWISS CHARD OR SPINACH BEET					Bieta
	Pkt.	Oz.	1/4 lb.	1 lb.	10 lbs.	
Large White Ribbed—Dark green, well blistered leaves with broad, white midribs.....	\$0.10	\$0.15	\$0.25	\$0.80	\$7.25	
Lucullus—Large midribs and light yellowish-green leaves10	.15	.25	.80	7.25	

MANGEL BEETS FOR STOCK FEEDING

6 to 8 pounds per acre.

	All Mangel Beets			
	Oz.	1/4 lb.	1 lb.	10 lbs.
Mammoth Long Red—The most popular and one of the heaviest yielders	\$0.10	\$0.20	\$0.60	\$5.50
Golden Tankard—Large oval yellow roots.....	.10	.20	.60	5.50
Improved White Sugar—Handsome white flesh, high in sugar content10	.20	.60	5.50

Chou Brocoli	BROCCOLI	Brocoli
--------------	----------	---------

One ounce will produce 2500 plants.

Early Green Calabrese—Our surpassingly fine strain of this wonderful vegetable comes to us from Naples and produces the desirable large closely packed central heads and solid side shoots so highly prized. Pkt. 10¢; 1 oz. 40¢; 1/4 lb. \$1.25; 1 lb. \$4.25.

Di Rapa—Known also as Caledonia Turnip or Senaps, this variety is relished for its turnip-like leaves and small flower heads which are eaten as greens. Pkt. 10¢; 1 oz. 20¢; 1/4 lb. 45¢; 1 lb. \$1.50.

Chou de Bruxelles	BRUSSELS SPROUTS	Cavolo di Brusselles
-------------------	------------------	----------------------

One ounce will produce 3000 plants.

Cambridge No. 5—A remarkable new tall growing English strain completely covered with large, very firm, fine green sprouts. Requires a longer growing season but well repays the extra time. Pkt. 10¢; 1/2 oz. 40¢; 1 oz. 70¢; 1/4 lb. \$2.25; 1 lb. \$7.50.

Early Morn—Very early and sure heading, producing an immense quantity of hard, solid buttons. Pkt. 10¢; 1/2 oz. 30¢; 1 oz. 50¢; 1/4 lb. \$1.50; 1 lb. \$5.00.

Ordinary Strain—This refined type is the equal of anything offered elsewhere and will give an abundant crop of solid and delicious sprouts. Pkt. 10¢; 1 oz. 40¢; 1/4 lb. \$1.25; 1 lb. \$4.00.

CARDOON

Long Smooth Solid—Grown like Celery and served like Asparagus. Pkt. 10¢; 1 oz. 35¢; 1/4 lb. \$1.25; 1 lb. \$4.00.

CHICORY
(See Endive.)

COLLARDS

Georgia Green—A cabbage-like plant used for greens. Pkt. 10¢; 1 oz. 15¢; 1/4 lb. 25¢; 1 lb. 70¢.

CORN SALAD

Large Round Leaved—Large dark green buttery leaves. Pkt. 10¢; 1 oz. 25¢; 1/4 lb. 85¢; 1 lb. \$3.00.

CRESS

	Pkt.	1 oz.	1/4 lb.	1 lb.
Fine Curled (Pepper Grass).....	\$0.10	\$0.15	\$0.30	\$1.00
True Water Cress—Excellent for growing in frames or greenhouses15	.45	1.25	4.00

HARICOTS

BEANS

FAGIUOLI

1 pound to 150 feet of drill, 1-1¼ bushels per acre.

The customer pays transportation on beans unless your total order amounts to more than \$20.00 in which case the entire order will be sent prepaid. Over 25 lbs. will be supplied at the 100 lb. price. Beans weigh 60 lbs. to the bushel.

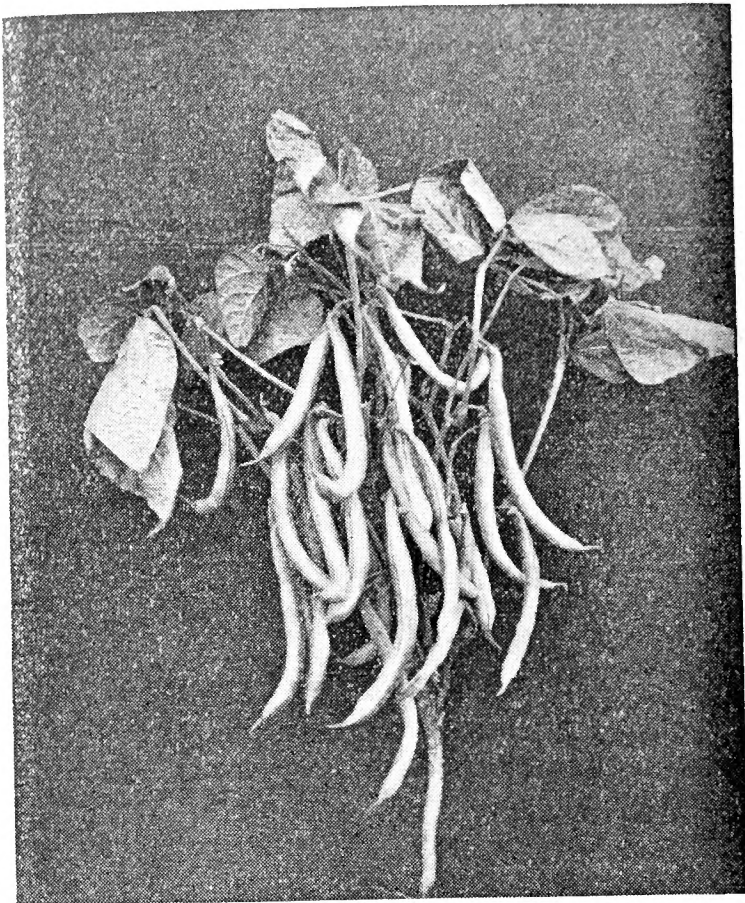

GREEN BEANS

Bountiful—The largest and heaviest yielding flat green Bean. Without question the finest stock of this favorite green-podded Bean. We challenge any other strain to produce a higher yield of these handsome, large and flat light green pods. Our many market gardener friends will bear witness to the high quality of our type.

(AAS) Tendergreen—The finest of the round podded green Beans. Although still comparatively new, this handsome and early Bean has become one of the most popular on our list. The high yield and superior quality of its straight, round, green pods will commend this Bean to the most critical gardener.

Landreth's Stringless—A splendid improvement on the old type Burpee's Stringless, growing two inches longer than that type. A round Bean of really superior quality and flavor.

(AAS) Plentiful—A new Bean which promises to be superior to Bountiful. A medium green, long straight-podded flat Bean absolutely stringless and notable for its strong heavy bush and immense yields. It is black seeded and subject to less discoloration than Bountiful.

Full Measure Beans

All Green Beans 20¢ per ½ lb.; 30¢ per lb; 2 lbs. for 55¢.

	10 lbs.	25 lbs.	100 lbs.
Bountiful —Finest Flat Green Pod.....	\$1.70	\$4.00	\$15.00
Tendergreen —The finest round pod.....	1.80	4.25	16.00
Landreth's Stringless —An improved new round pod.....	1.60	3.75	14.00
(AAS) Black Valentine Stringless —An extremely prolific and early round Bean entirely stringless.....	1.70	4.00	15.00
Full Measure —A fine early stringless and round Bean, unexcelled for canning	1.70	4.00	15.00
Plentiful —Heaviest yielding green pod.....	2.20	5.00	18.00
(AAS) Commodore —A true bush form of the justly popular Kentucky Wonder with extremely big, long round, fiberless and stringless dark green pods and very highly productive. Imagine growing delicious "Old Homestead" Beans without poles. ½ lb. 25¢; 1 lb. 40¢; 2 lbs. 75¢.			

SHELL BEANS

French Horticultural—Our superior strain of this splendid Bean is still "tops" with its handsome Seven inch pods liberally splashed with carmine. This Bean originated in New England, we secured our strain from the originator and continue to grow it in New England under our constant supervision. No wonder it brings better prices.

Ruby Dwarf Horticultural—The old favorite "cranberry" bean so desirable for succotash.

Low's Champion—Useful also as green "snap" Beans and very superior as a shell variety.

Vermont or Old Fashioned Cranberry—A favorite Shell Bean in Northern New England which should be used elsewhere. The Beans and Pods are the largest in any of the dwarf types. Known also as "King of the Earlies" or "Model Early."

	½ lb.	1 lb.	2 lbs.	10 lbs.	25 lbs.	100 lbs.
French Horticultural	\$0.20	\$0.35	\$0.65	\$2.00	\$4.75	\$18.00
Ruby Dwarf Horticultural20	.30	.55	1.70	4.00	15.00
Low's Champion20	.30	.55	1.80	4.25	16.00
Vermont or Old Fashioned Cranberry20	.30	.55	1.60	3.75	14.00
Fava Long Pod —An extremely long podded strain of the English Broad or "Horse" Bean						
	.15	.25	.45	1.80	4.25	16.00

WAX OR YELLOW PODDED BEANS

Pencil Pod Black Wax—The finest round podded wax Bean for home or market. Frequent roguing and particular attention to stock seed keeps our strain of this favorite Bean at the peak of perfection. Its long, round, waxy yellow pods are never marred by the "shorts" and "greens" so common to inferior strains.

Sure Crop Wax Beans

Sure Crop Wax—Justly the most popular flat Wax Bean. Also known as Bountiful Wax, this superior yielding Bean occupies the same position among Wax Beans that the Bountiful does in the green pods. Its enormous yields of long, straight, flat, bright yellow pods spell extra profits.

Davis Stringless Kidney Wax—A new flat straight Bean of exceptional merit. Long, straight, light yellow pods, absolutely stringless, characterize this desirable new Bean. Its tremendous yields and desirable appearance should deserve a place for it on every farm.

Unrivald Wax—Truly "unrivald" for early and heavy yields. An exceptionally early Bean, with long, narrow, flat pods which yields tremendously on very dwarf plants. Your pickers will turn in 50% more baskets in the same time on fields of Unrivald.

All Wax Beans 1/2 lb. 20¢; 1 lb. 30¢; 2 lbs. 55¢.

	10 lbs.	25 lbs.	100 lbs.
Pencil Pod Black Wax —In all ways the best round pod.....	\$1.65	\$4.25	\$16.00
Sure Crop Wax —The superior flat pod.....	1.65	4.25	16.00
Davis Stringless Kidney Wax —An exceptional new flat pod.....	1.55	4.00	15.00
Unrivald Wax —Early and heavy yielding.....	1.50	4.00	15.00
Round Pod Kidney Wax —Long, round, clear yellow pods of exceptional flavor	1.90	4.25	16.00
Top Notch Golden Wax —An unexcelled new strain of this popular, tasty flat Bean.....	1.60	4.00	15.00

LIMA BEANS

One pound of Dwarf Limas to 150 feet
or about 60 pounds per acre.
One pound of Pole Limas to about 80 hills.
All Lima Beans 20¢ for 1/2 lb.

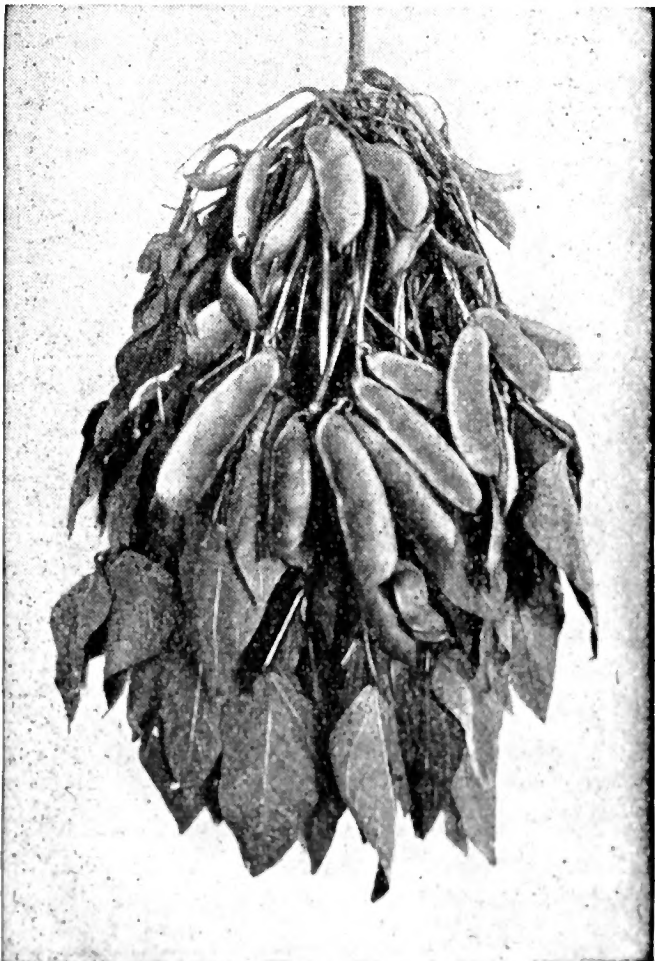

(AAS) Baby Bush Lima—A very early small-seeded thick Lima of the Fordhook type. A bright green at the eating stage and of superior flavor. 1/2 lb. 25¢; 1 lb. 45¢; 2 lbs. 85¢.

Burpee's Imp. Bush Lima—Larger pods and beans. One more bean per pod than in the old variety. A trifle deeper green in color. 1 lb. 30¢; 2 lbs. 55¢; 10 lbs. \$1.75; 25 lbs. \$4.25; 100 lbs. \$16.00.

Fordhook Bush Lima—Our strain is justly the most popular on the large Long Island and South Jersey markets because of its high vitality and freedom from splitting. Fordhooks are one of our biggest specialties. 1 lb. 35¢; 2 lbs. 65¢; 10 lbs. \$2.50; 25 lbs. \$6.00; 100 lbs. \$22.00.

King of the Garden Pole Lima—Early and productive. 1 lb. 30¢; 2 lbs. 55¢; 10 lbs. \$1.60; 25 lbs. \$3.75; 100 lbs. \$14.00.

Mammoth Podded Pole Lima—The largest Lima Bean in existence. Immense Beans in immense pods. 1 lb. 35¢; 2 lbs. 65¢; 10 lbs. \$1.85; 25 lbs. \$4.25; 100 lbs. \$16.00.

Fordhook Bush Lima Beans

POLE BEANS

One pound to about 100 hills.

King Horticultural—A revelation if you have never tried it. Our strain of this remarkable but little known Bean produces immense pods 8 to 9 inches long, beautifully splashed and colored with rich yellow and carmine and very similar in appearance to French Horticulturals. The handsome pods bring a premium on every market and even a few poles will more than repay the extra effort.

All Pole Beans 20¢ per half pound.

	1 lb.	2 lbs.	10 lbs.
King Horticultural —An exceptional strain.....	\$0.35	\$0.65	\$2.00
Yard Long —A novel Green Pod which may be used as a Snap Bean, growing 30 to 35 inches long. ½ lb. 30¢.....	.50	.90	
White Dutch Runner —Large White Beans much like Limas.....	.30	.55	1.75
Scarlet Runner —A large edible Bean also used for decorative purposes30	.55	1.75
Kentucky Wonder or Old Homestead —The favorite pole "snap" Bean. Early and prolific and of excellent quality.....	.30	.55	1.55
Kentucky Wonder Wax —Long, flat yellow pods of fine quality.....	.30	.55	1.65

FIELD OR BAKING BEANS

Chou Pomme

CABBAGE

Cavolo Cappuccio

One ounce for 1500 to 2000 plants. Four to Six ounces per acre.

Golden Acre Cabbage

Golden Acre—(Original Strain) Universally considered the finest early Cabbage, Golden Acre reaches new heights in our splendid strain. Uniform in maturity, size and shape, it leaves little to be desired. We are proud of its universal acceptance.

Super Golden Acre—A real "Super" Strain. The evenness of this strain is remarkably surprising. All heads are exactly alike and a field at maturity attracts the most favorable attention. In addition it reaches the solid stage several days ahead of the original strain at a cost to you of less than \$1.00 more per acre. Isn't it worth it?

(AAS) Moskow Market Pride— Earliest Cabbage grown. A

superlative new strain of early, round heading Cabbage, maturing one week to ten days earlier than Golden Acre. Our stock is very short and we can offer this wonderful new money maker in limited quantities only. This is without exception the earliest Cabbage in existence.

(AAS) Red Earliest of All—A splendid new extra early red Cabbage of superlative quality. It is early, very solid, of good size for the market, very even in size and shape and a dependable header.

(AAS) Penn. State Ball Head—Our strain of this tremendous yielder is state sealed and certified. The round solid, heavy heads will produce practically 100% and outyield any other variety of Cabbage in total tonnage to the acre.

(AAS) Savoy Chieftain—Now—a truly early Savoy type with crisp, large firm heads of high quality and long standing habit. The heads are solid and well blistered and fill a long-felt need for a high quality Savoy type for the early market.

All Cabbage 10¢ per packet.

	Oz.	¼ lb.	1 lb.
Golden Acre —Standard for early yields.....	\$0.25	\$0.90	\$3.25
Super Golden Acre —A superfine strain.....	.40	1.25	5.00
Moskow Market Pride —Earliest Cabbage known.....	2.00	7.00	6.00
Red Earliest of All —Earliest Red Cabbage.....	.50	1.50	5.00
Penn. State Ball Head —Heaviest yielding.....	.30	1.00	3.25
Early Jersey Wakefield —An extra early heavy yielding pointed Cabbage of superlative quality. We offer an exceptionally fine strain25	.90	3.25
Copenhagen Market —A fine round headed variety to follow Golden Acre and 3 to 4 pounds heavier than that sort. Our selection is very sure heading.....	.25	.90	3.25
Danish Round Head —Hard, solid balls, close set to the ground. More globe-shaped than the Ball Headed types.....	.25	.75	2.75
Danish Ball Head —(Short Stem). We offer an excellent strain of this favorite main crop variety.....	.25	.70	2.50
Premium Late Flat Dutch —Large, flat, deep heads. Much relished for kraut25	.85	3.00
Perfection Drumhead Savoy —Our strain has a dark green color with a fine curly appearance and is very compact and uniform25	.85	3.00
Mammoth Red Rock —The largest and best fall or early winter shipping and storing variety.....	.25	.85	3.00
(AAS) Sauerkraut King —A solid, round distinctly high quality Ball Head type which is unsurpassed for "kraut" or pickling.....	.40	1.25	4.00
(AAS) Just Right —An excellent early, small, flat Dutch type of high quality and texture completing another maturity cycle.....	.40	1.25	4.00
Savoy Chieftain —A new early Savoy type.....	.40	1.25	4.00

CHINESE CABBAGE

Chokurei —Long, solid, cylindrical heads.....	\$0.25	\$0.75	\$2.25
Market Pride —Short, chunky, tight heads.....	.25	.75	2.25

CHOU FLEUR

CAULIFLOWER

CAVOLO FLORE

One ounce to 1500 to 2000 plants.

Early American Snowball—A remarkable new strain of Cauliflower grown in the United States and the equal in every respect of any strain grown in Europe. We consider it a high honor to be privileged to present it. The sturdy and rugged plants produce large, deep heads with a tight curd of snowy white and every plant heads uniformly and evenly. We strongly urge you to give Early American Snowball a trial. Pkt. 20¢; ½ oz. \$1.25; 1 oz. \$2.25; ¼ lb. \$8.00; 1 lb. \$30.00.

Super-Snowball—The Supreme Cauliflower. Pedigreed stock of this extremely early variety grown from a European gardener's strain. It has a deeper curd of better weight than any other strain we have seen and the entire crop heads evenly and uniformly. Why take chances with inferior strains when your total cost per acre is so little more with this Super-strain. Pkt. 20¢; ½ oz. \$1.50; 1 oz. \$2.50; ¼ lb. \$9.00; 1 lb. \$32.00.

Early Snowball (Perfected)—Still the best main crop variety with large attractive heads of uniform size. This is the same strain we have offered so successfully for many years and we can assure you that it is not necessary to pay more than we charge for a highly satisfactory stock of this popular main crop variety. Pkt. 15¢; ½ oz. \$1.00; 1 oz. \$1.75; ¼ lb. \$6.00; 1 lb. \$22.00.

Snowdrift—Presenting the whitest, most attractive heads known in any Cauliflower—on dwarf, compact plants. Very early and very reliable heading. Pkt. 15¢; ½ oz. 90¢; 1 oz. \$1.60; ¼ lb. \$6.00; 1 lb. \$22.00.

Celeri

CELERY

Sedano

One ounce to 8000 plants;
20,000 plants per acre.

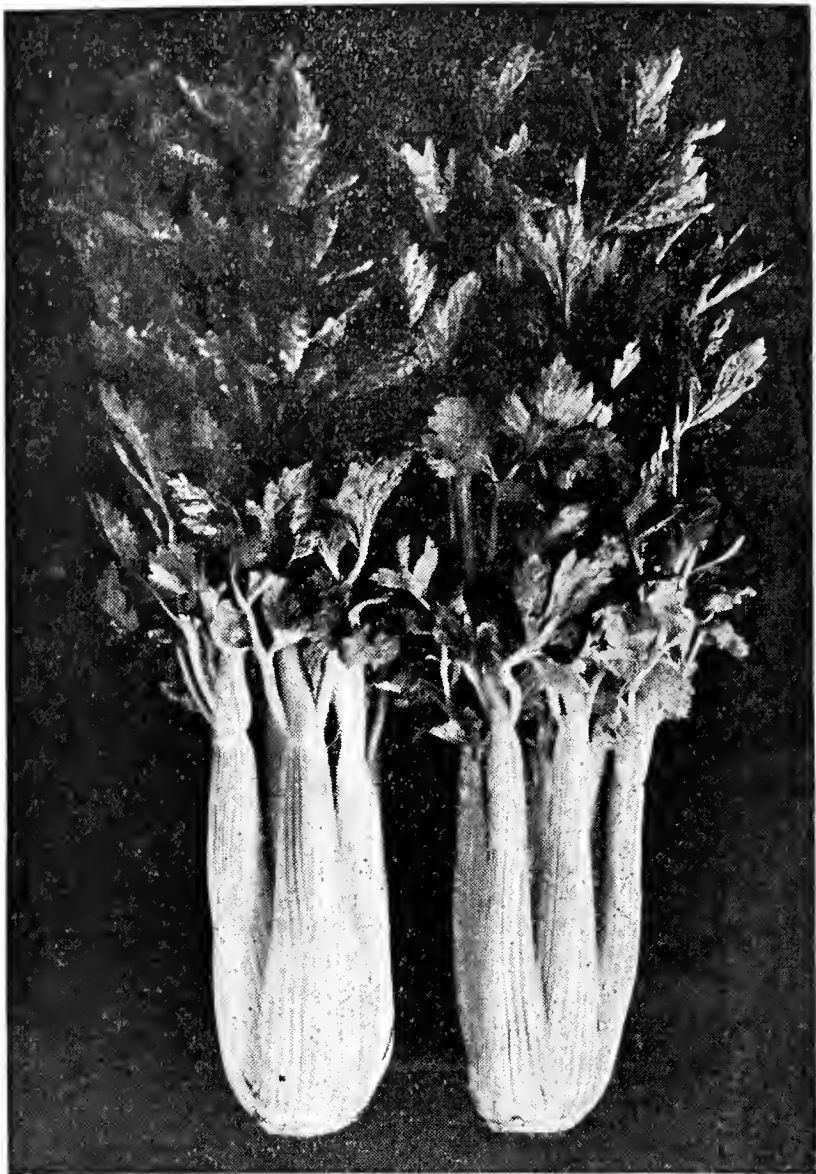

Superplume—Unexcelled to store for fall or winter use. A definite improvement over Golden Plume yet in the same general class.

Supreme Golden—The supreme golden self-blanching type. Very similar to the popular and well-liked Golden Plume but with thicker, longer, meatier and higher quality stems. It is also earlier and stays in condition a longer time, making it a better storage Celery for fall and winter use. Try this as a companion piece to Golden Plume.

Wonderful or Golden Plume—Still the finest yellow Celery. Our proven stock produces very large stalks with thick, heavy hearts and an absolute minimum of "softs" and "greens." The germination is strong and vigorous and no matter what you pay for Celery you cannot secure a larger number of stalks than from this tried and tested seed.

Utah or Salt Lake—Best of the Green Types. Extremely crisp, thick stalks of high quality which blanch very quickly with a smaller number of softs than in any other green Celery.

Golden No. 14—Midseason between Wonderful and Golden Self Blanching and combining the attractive qualities of both with a taller stalk than Wonderful. Stands cold well without developing soft stalks.

Golden Detroit Celery

	1/2 oz.	1 oz.	1/4 lb.	1 lb.
Golden Self Blanching —(Old Type.) Popular for late crops with large heavy hearts.....	\$0.30	\$0.50	\$1.75	\$6.00
Easy Blanching (Newark Market) —Leaves green and stalks pure white when blanched and of excellent quality30	.50	1.75	6.00
Giant Pascal —Large, solid green stalks which quickly blanch to a pure white. Our type is unusually free from "softs" and "strings".....	.25	.40	1.25	4.00
Golden Detroit —Broad, thick stems and tall stalks, of the Golden Self Blanching type but taller, thicker and very full hearted. Highly recommended.....	.30	.45	1.50	5.00
Wonderful or Golden Plume —Best of all.....	.35	.60	2.00	7.00
Utah or Salt Lake —Finest Green Celery.....	.35	.60	2.00	7.00
Celeriac or Knob Celery —Large bulbous roots of high quality20	.60	2.00
Supreme Golden —The new yellow variety which promises to surpass Golden Plume in popularity. Pkt. 25¢.....	.50	.90	3.25	11.00

CARROTE

CARROT

CAROTA

One ounce to 300 feet of drill; 3-4 lbs. per acre.

Imperator Carrot

(AAS) **Imperator**—The finest for bunching. Also known as the "California" this quality Carrot is very popular with the high-class trade. The long, smooth, tapering roots are a deep orange in color with a minimum of core, and cook up tender and sweet.

(AAS) **Claudia**—A new Extra Early. A splendid new Carrot of European origin. The half-long tapering roots have a deep orange-red color and are practically coreless. They mature unusually early and we look forward to a life of great popularity for the Claudia.

(AAS) **Supreme Half Long**—For the discriminating trade. Another new variety of exceptional merit for those who consider Danvers a trifle too short and Imperator a bit too long. The Supreme strain is midway between the two and is practically cylindrical with a blunt end and is a rich orange-red in color and of delicious texture and flavor.

Chantenay Special No. 403—Desirable for early bunching. Seven inch roots tapering slightly with blunt ends and maturing fully as early as Chantenay. Highly desirable for those who want a somewhat longer carrot than Chantenay without sacrificing earliness.

Hutchinson—(One generation removed from Waltham strain.) Our strain of this popular New England variety needs no introduction. The long, cylindrical roots will grow 12 to 15 inches long and are a beautiful deep orange in color, shading to a light green on the shoulders. No Carrot known produces a greater yield than Hutchinson. Our superior strain costs more and is worth it.

All Carrot 10¢ per packet; 15¢ per ounce.

	1/4 lb	1 lb.	10 lbs.
Imperator —Best Bunching Carrot.....	\$0.35	\$1.25	\$11.50
Claudia —Earliest Bunching Carrot.....	.45	1.75	4.00
Supreme Half Long —Unexcelled appearance.....	.35	1.25	11.50
Chantenay Special —Early and desirable.....	.30	1.00	9.00
Hutchinson —Super strain for New England Gardeners.....	.60	2.00	18.00
Tendersweet —The Sweetest and finest textured Carrot grown. Eight to ten inches long, tapering, and practically coreless. For table use or canning this has no equal.....	.40	1.50	14.00
Scarlet Nantes —(Coreless.) Absolute cylinders with blunt ends and entirely coreless. Housewives prefer it for slicing and dicing and its attractive appearance sells it readily.....	.45	1.75	16.50
Danvers Half Long —The old favorite and a very heavy cropper....	.30	1.00	9.00
Chantenay Red Cored —The coreless Carrot which has displaced the old type Chantenay, being smoother, more uniform and more attractive35	1.10	10.00
Improved Long Orange —Foot long roots yielding heavily.....	.30	.90	8.00
Streamliner Superior Quality —Smooth 8 inch roots, tapering slightly to a blunt end with strong, short tops. It has a rich golden color and is practically coreless. Definitely a high quality Carrot.	.45	1.75	16.00

Pissenlit

DANDELION

Dente di Leone

1 oz. to 100 feet of drill.

Oz. 1/4 lb. 1 lb.

Italian Dandelion —(Cicoria Catalogna.) A favorite Italian "greens" plant. We have the true strain imported from Naples.....	\$0.25	\$0.75	\$2.75
Arlington Thick Leaf —The finest Market Gardeners' strain, with stocky, very broad leaved plants with heavy white ribs. We offer only fresh seed of strong germination.....	.45	1.25	4.50

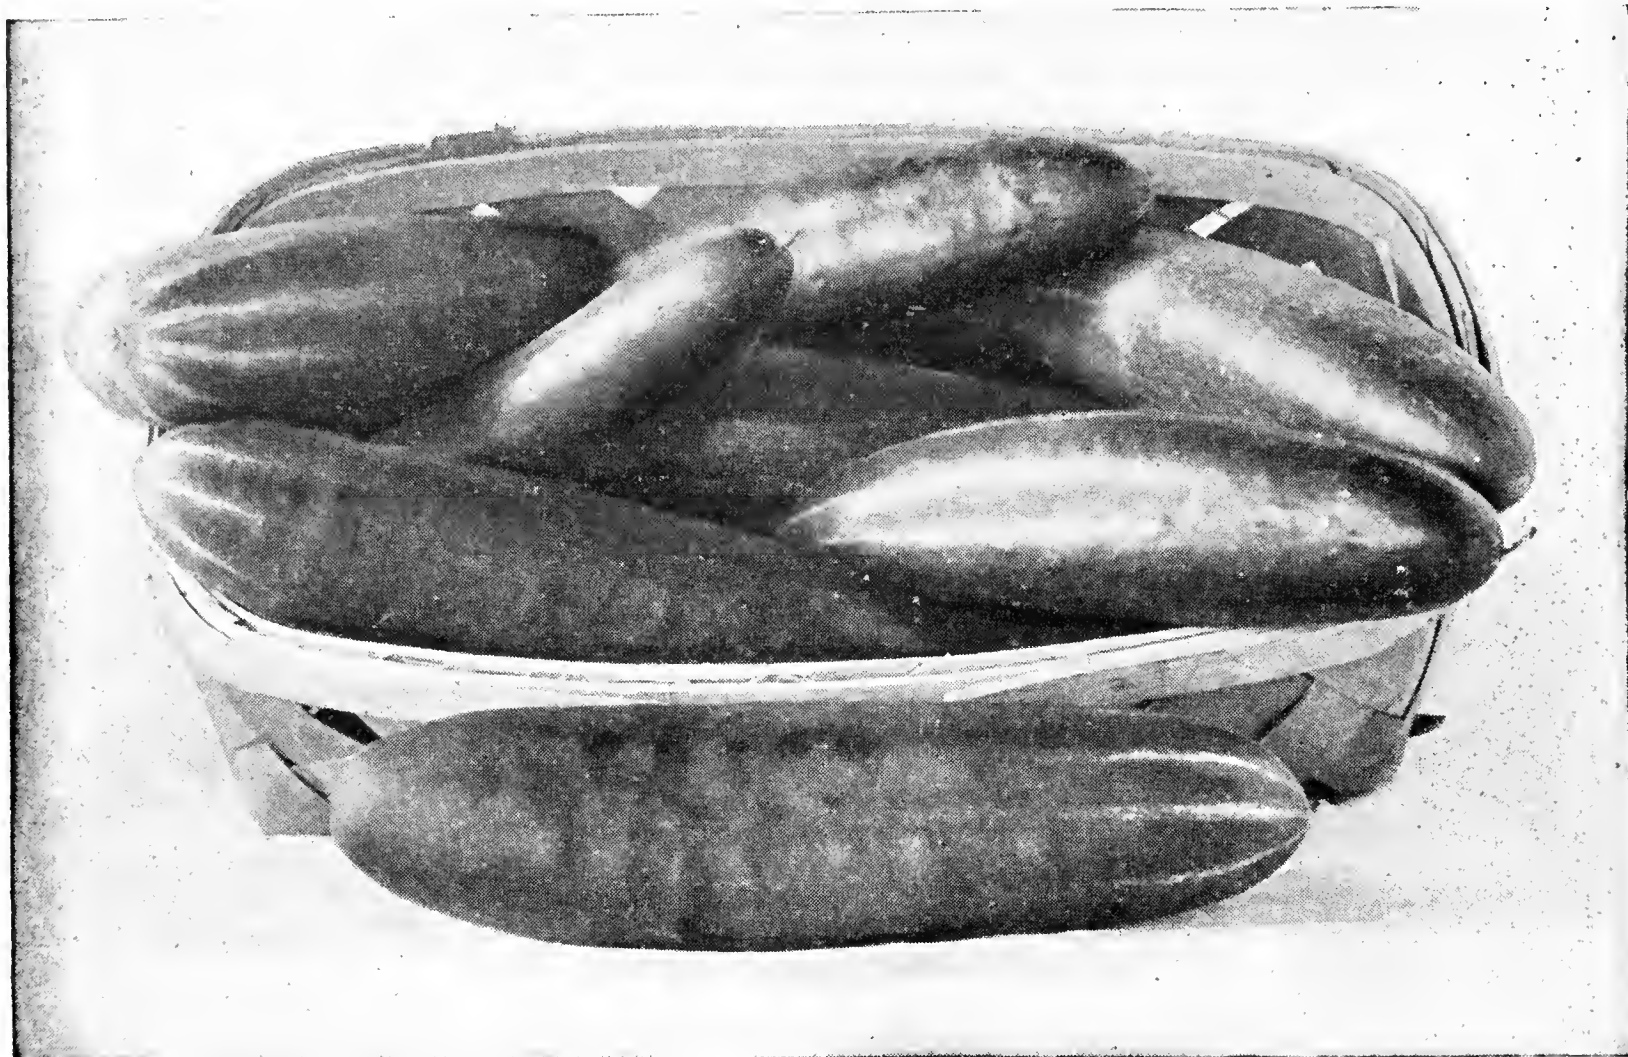

CONCOMBRE

CUCUMBER

CETRIOLO

One ounce to 50 hills; 3 pounds per acre.

Hybrid White Spine—For heaviest yields. Although a mid-season variety the extra yields per acre of this long, handsome Cucumber make it one of the most valuable for a gardener to grow. It holds its rich green color a long time and stands up extremely well. Our strain is as fine as it is possible to secure.

Hybrid White Spine Cucumber

(AAS) Straight Eight—Handsome and prolific. Every fruit uniformly 8 inches long—as though poured from a die—straight and smooth and a pleasing dark green in color. This uniformity of size and color coupled with its extremely high yield deserve for it a place on every trucker's list. Our strain is from the originator's stock.

A. & C.—Long and attractive. Probably the handsomest Cucumber grown with 11 inch fruits, uniform and cylindrical throughout their length, terminating in blunt, well rounded ends and of a very deep dark green color. Handsome and desirable both for shipping and for market gardens. Our strain is top-notch.

Longfellow—Longest Cucumber grown. Fruits 12 to 15 inches long, borne very early, dark green, uniform and attractive. This is the **premium** Cucumber and we consider it the highest quality Cuke of all. Naturally, we have devoted considerable time to the perfection of this splendid type.

Perfected Pickling—Prolific and early. Our selection of an ideal pickling variety. Early, highly productive, uniformly shaped and colored, it leaves little to be desired. When mature, the fruits are 5 to 6 inches long, straight, blunt ended and a medium deep green.

(AAS) Colorado—A very long slender white spine type of an intense dark green shade. Very early and prolific. Popular for its excellent shape and bright color which is held longer than in any other variety.

(AAS) The Barteldes—A very early dark green, smooth-skinned, white spine type with solid crisp flesh. Ten-twelve inches long and three inches thick at maturity. An unexcelled market and shipping variety which holds its color. A very shy seeder.

(AAS) Clark's Special—Another deep green, white spine type which is slightly smaller, growing 8 to 10 inches long with a smooth glossy green skin and well rounded ends.

All Cucumbers 10¢ per packet; 15¢ per ounce.

	1/4 lb.	1 lb.	10 lbs.
Hybrid White Spine—The heaviest yielder.....	\$0.35	\$1.15	\$10.00

A. & C.—Long, attractive and prolific.....	.45	1.60	15.00
Longfellow—A long, slender, deep green.....	.45	1.60	15.00
Perfected Pickling—Not only the heaviest yielder but the earliest.....	.45	1.50	14.00
Black Diamond—Early and prolific. Much prized for its ability to hold its color and firmness for a long period of time.....	.35	1.15	10.50
Early Fortune—A splendid White Spine type. Very early and productive. Color light green with a trace of white at the stem.....	.30	.90	8.00
Improved White Spine—Early and productive.....	.30	.90	8.00
Davis Perfect—Very long, straight fruit tapering at the ends with a rich deep green color.....	.35	1.15	10.50
Improved Long Green—We have a very pure strain.....	.35	1.15	10.50
Boston Pickling—The standard for commercial pickling use. Blunt ended fruits, 6 inches long.....	.30	.90	8.00
China Long—An edible novelty 15 to 20 inches long.....	.50	1.85	
Colorado—Long, slender, intense bright green.....	.45	1.50	14.00
The Barteldes—Long and slim, deep green, with few seeds.....	.45	1.50	14.00
Clark's Special—Slightly shorter than the above but firm, solid, deep green and altogether pleasing.....	.35	1.25	11.50

MAIS

SWEET CORN

MAIS

One pound to 200 hills; 15 pounds per acre.

Connecticut grown Corn is famous for flavor and sweetness. Our Corn is all produced in the rich and fertile Connecticut River Valley. Nothing can compare with it.

Sweet Corn is not postpaid unless your total order amounts to more than \$20.00 in which case the entire order is sent prepaid.

YELLOW OR GOLDEN VARIETIES

Golden Early Market or Extra Early Golden—There are many inferior strains of this most valuable of early varieties. Our stock has been grown under our own supervision since we secured our original strain, and we believe we have today as pure an early, large-eared strain as there is available. The 7 to 8 inch ears of broad, yellow kernels sell readily and are available when other gardeners are bringing in small undersized ears.

Golden Sunshine—Good for market as well as the home garden. For several years we have selected Golden Sunshine for earliness and size and can offer today a Corn nearly as early as Golden Market, a trifle longer but slimmer, possessing the delicious flavor of Golden Bantam.

Hart's Golden Bantam—Extra early, extra heavy yielding and extra sweet. Eight rows of large, plump Golden Yellow kernels, bursting with sweetness. The very appearance of our Golden Bantam is irresistible. There is no heavier yielding, earlier or more attractive Bantam offered than this—the yardstick of quality.

All Yellow Corn 1/2 lb. 15¢; 1 lb. 25¢; 2 lbs. 45¢.

	10 lbs.	25 lbs.	100 lbs.
Golden Gem—The earliest Corn grown. Especially in Northern New England	\$1.60	\$4.00	\$15.00

HYBRID CROSSED CORN

No longer a freak or a novelty, Hybrid Corn has assumed a very definite place in the market gardening and canning industry. Vigorous, sturdy plants, a good sound ear on every stalk, no weak or spindling plants, few nubbins or mouldy ears, high resistance to Stewart's Disease and an ability to ripen the field at nearly the same time are the outstanding characteristics of Hybrid Corn. Thus a field of one of the proven crosses we offer will outyield a corresponding field of open-pollinated Corn by 25 to 75 percent. Your additional seed cost per acre will average \$3.00. With Corn at its very cheapest, 5 or 6 hundred extra ears will pay for the extra seed cost. Yet you will pick from 4 to 6 thousand extra ears. Isn't it wisdom to plant crossed corn?

Just as Connecticut has always been outstanding in the production of high quality Sweet Corn so it is with Hybrid Corn. Our State Experimental Station has pioneered in production methods and the inbreeding of desirable seed and pollen parents for Hybrid Corn work. Doctors Jones, Singleton and Curtis have been extremely helpful in their suggestions and advice and we consider it a privilege to have been associated with them.

Golden Cross Hybrid Corn

HYBRID CROSSED CORN

Please note that we have reduced our list of Hybrid Sweet Corn very considerably this season. The reason for this is, briefly, that we have discontinued the earlier crosses in favor of newer ones which obviously have so many advantages and superior qualities. Rigorous tests in all sections have proven that:

Spancross 4 x 13 is superior to: Spancross C2, Spancross P39, Gemcross C6, Gemcross C13.

Marcross 13.6 is superior to: Marcross P39, Market Hybrid, Marcross C6, Marcross C3.

Carmelcross is superior to: Whippcross P39, Whippcross C6.2, Whippcross C6, Whippcross P39.6.

In accordance with our general policy we will continue to grow and offer only the new and better varieties and discontinue the obsolete and inferior sorts.

All Hybrids $\frac{1}{2}$ lb. 25¢; 1 lb. 45¢; 2 lbs. 80¢.

Spancross 4.13—This revolutionary cross is destined to change the entire Hybrid Corn picture. It is not only earlier than any cross heretofore offered but it has qualities that no other early open-pollinated Corn possesses. It is extra-early, very large eared and has exceptional flavor and tenderness. It wastes no time making fodder, growing only about four feet high, but goes right to work making an ear which it bears only about a foot above the ground. You will not only pick this corn earlier than any other, but we warrant you will pick more large ears per acre than on any other early variety. Our supply is very limited. 10 lbs. \$4.00; 25 lbs. \$9.25.

Marcross 13.6—The best second early Hybrid, maturing at practically the same time as open-pollinated Golden Market with even larger ears and large, broad kernels. It is highly resistant to disease and wherever planted last season gave great satisfaction. For the main crop early it is unsurpassed. 10 lbs. \$3.75; 25 lbs. \$9.00; 100 lbs. \$35.00.

Carmelcross—(Also called Whippcross 13.39)—The finest mid-season cross with the superior size and yield of Whipples Yellow and the superb table quality of Purdue Bantam plus the extra yield, uniformity and disease resistance imparted by crossing. This exceptionally fine cross is superior to any variety grown in the mid-season class. 10 lbs. \$3.75; 25 lbs. \$9.00; 100 lbs. \$35.00.

Marcross Hybrid Corn

SPANCROSS HYBRID CORN

and doubles the yield without sacrificing the deliciously sweet and delightfully tender flavor of that surpassing variety. 7 inch ears with long pearly white kernels in 10 to 12 rows, borne over 16,000 to the acre. The finest Corn you can set on your table and the greatest advertisement for quality a road stand or market gardener can offer to his customers. They all come back for more. 10 lbs. \$4.00; 25 lbs. \$9.40; 100 lbs. \$37.00.

Golden Cross—Whereas this must be classed as a late variety it bears the same relation to Crossed Corn that Golden Bantam does to open-pollinated varieties. The ears are long and slender and the deep kernels are of delicious tenderness and flavor. This is unexcelled for the main crop plantings and is generally preferred by canners and market gardeners. 10 lbs. \$3.25; 25 lbs. \$7.50; 100 lbs. \$27.00.

Bantam Evergreen Hybrid—7½ inches long, 12-14 rows, 14,000 per acre. Mammoth ears with heavy deep kernels of the Evergreen type. 10 lbs. \$3.00; 25 lbs. \$7.25; 100 lbs. \$27.00.

Redgreen—The finest white hybrid of the Evergreen type. Really of remarkable appearance. 7½ inches long, 10-12 rows, 16,000 large, even, uniform, snowy white ears per acre. 10 lbs. \$3.75; 25 lbs. \$9.25; 100 lbs. \$35.00.

Pearlcross—A cross on our Early Pearl (the sweetest Corn in the world) which doubles the size

Early Pearl — The Sweetest Corn in the World

The peak of perfection. In no place in the world does Sweet Corn, the most delightful of all native delicacies, attain a finer flavor than in the fertile Connecticut River Valley and no Corn can even begin to approach the delicate flavor and delightful taste of our Early Pearl. This really remarkable Corn grows about 5 inches long, just the right size for the high class hotel and restaurant trade, and is 12 rowed, with long, deep, snowy-white kernels. The tender thin pericarp breaks readily to release the delicious "sweet" milk of the Corn with its delicate honey-like flavor, and even if the ears are allowed to stand on the stalks for nearly two weeks, they will still retain their delicious tenderness.

We have had so many glowing reports and so many letters of praise from our customers, that we want others to try Early Pearl; we know you will be delighted. If you have only a small space for a garden nothing will repay you more than a few hills of Early Pearl—that is if you appreciate fine things—and who doesn't like fine things to eat? Pkt. 10¢; ½ lb. 20¢; 1 lb. 35¢; 10 lbs. \$2.80; 25 lbs. \$6.75; 100 lbs. \$25.00.

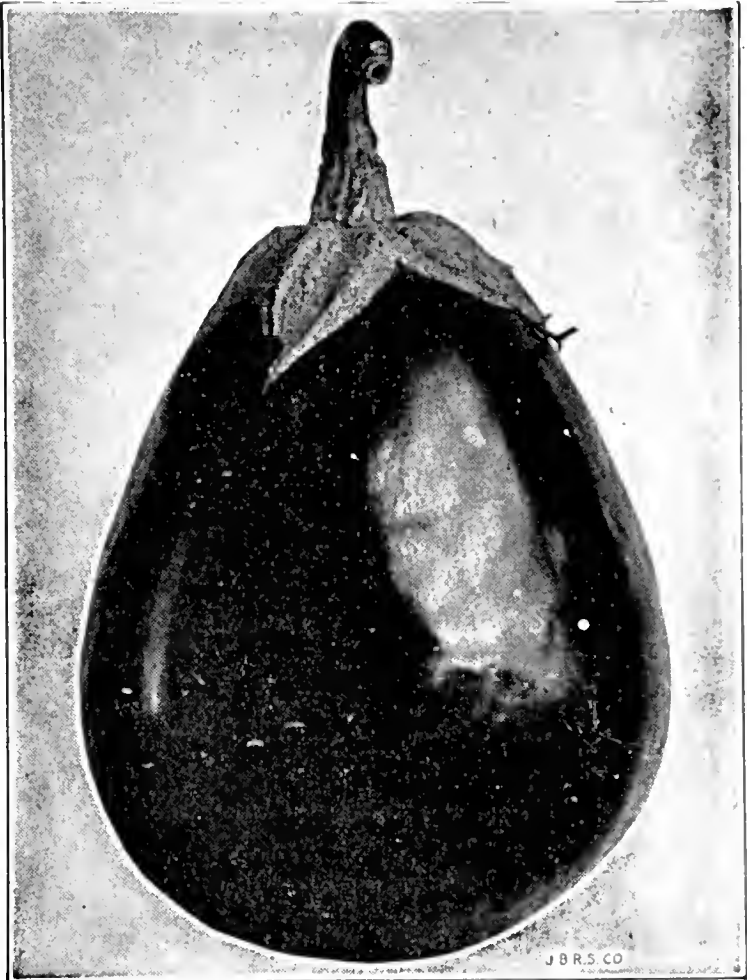

All Packets on this page 10¢, except as noted.

LAITUE

LETTUCE

LATTUGA

1 oz. to 300 plants; 3 pounds to the acre.

New York Lettuce, No. 12

- type. It is much harder and has a slightly flattened head although a trifle later. It is very slow to seed and stands heat well. We consider it unsurpassed for New York and New England.
- Imperial No. 847**—A New York Head type which is ideal for New England and the Middle Atlantic States. Although slightly later than No. 12 it forms a very hard, solid head which cuts very white and is unsurpassed for late planting. It stands hot weather extremely well and is highly resistant to mildew and brown blight.
- White Boston Cornell No. 43**—Similar to Big Boston but without the brown tinge and a lighter green throughout. It stands well in hot weather and does not turn red in cold or frost. Excellent for frames or the open field in either spring or fall.

New York No. 12 or California Iceberg—Our improved early strain of this unsurpassed Lettuce is practically 100% sure heading and is especially valuable for early spring sowing.

New York No. 515—A new "hot weather" Lettuce. A wonderful new strain of New York Head which is earlier and withstands hot, dry weather much better. The type and appearance is very similar to No. 12 with few outside leaves and large, solid heads, and is an attractive bright green in color. Try this by all means. Our strain is very dependable.

Imperial No. 44—The Supreme "Iceberg" or "New York Head"

All Lettuce 10¢ per packet.

	Oz.	¼ lb.	1 lb.
New York Head No. 12 —Best for early sowing.....	\$0.15	\$0.50	\$1.75
New York Head No. 515 —Sure heading in hot weather.....	.20	.60	2.00
Atlantic —Finest frame or forcing variety.....	.20	.60	2.00
May King —Very early for forcing in frames.....	.15	.30	1.00
Big Boston Special —Our strain heads uniformly and stands a long time before bolting. Very fine.....	.15	.30	1.00
Iceberg —Large, solid heads with curled, blistered leaves; a pleasing light green.....	.15	.40	1.25
Imperial No. 44 —Finest of the "Iceberg" types.....	.25	.90	3.25
Romaine or Cos—Self Folding —Long, large heads of the highest quality. We have a very high class strain.....	.15	.40	1.25
White Boston —Uniform and sure heading. Our strain shows a remarkably high resistance to "Tip-burn".....	.15	.45	1.50

Oak Leaf —A rapid growing, heat resisting leaf lettuce, ideal for the summer salad bowl. The leaves are small, tender and bright green and hold their tenderness throughout the summer.....	.20	.60	2.00
Early Prizehead —Crisp loose heads deeply curled and tinged with reddish brown.....	.15	.45	1.50
Grand Rapids Special —Large, robust well curled heads in a delightful light green. Our strain is superlative.....	.15	.45	1.50
Imperial No. 847 —The ideal "hot weather Iceberg".....	.20	.70	2.25
White Boston Cornell No. 43 —The ideal "Butter-head" Lettuce for frames or field.....	.20	.60	2.00
Cosberg. Distinct New Type —Similar to New York and Iceberg but the color is a paler, lighter green and the veins more distinct. The leaves are blistered and crumpled and very finely waved and fringed. Very solid, hard heading and dependable. Highly recommended for the home garden.....	.25	.75	2.75

POPONE

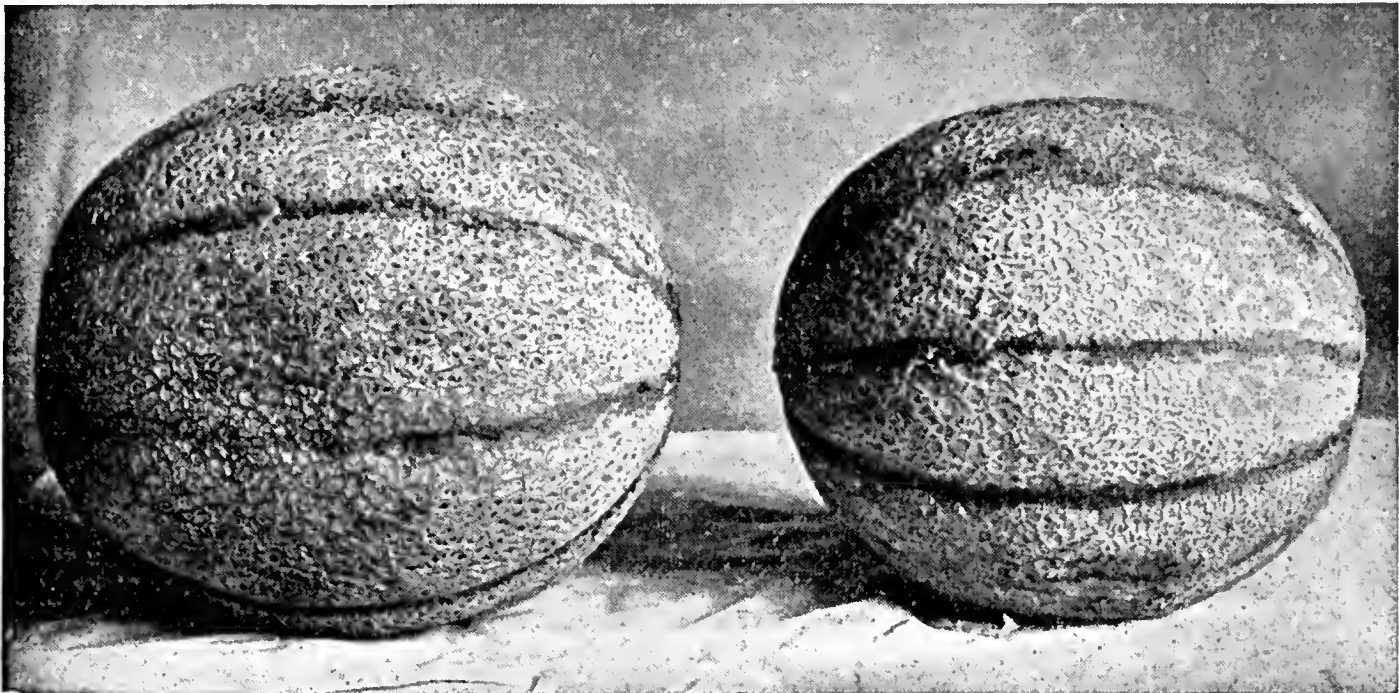

MUSKMELON

MELON

1 oz. to 50 hills; 2 pounds to the acre.

- Delicious**—The earliest large melon grown. This popular improvement on the Bender's ripens one week to ten days earlier and grows nearly as large. It is really delicious and sells readily on the roadside stand. Our strain is from hand cut melons, and is the equal of any on the market.
- Bender's Surprise**—Northern grown and carefully selected. Attractive appearance, fine flavor, large size and long keeping qualities, make this wonderful variety the most desirable on the whole melon list. Our strain is, of course, one of the finest on the market and there is no need to pay more.
- (AAS) Sugar or Honey Rock**—Sweet and delicious. These round melons with their light grey network are packed with deep-orange delicious flesh and are hard as a rock even when fully ripened. This melon is one of the most attractive grown.
- (AAS) Imperial**—A medium sized yellow netted fruit with delicious orange flesh which is a very prolific cropper under hot, dry conditions. In addition it stands shipping well and may be left on the vine for a long period after ripening. If you have experienced difficulty in growing melons we believe you should try Imperial.

All Muskmelon 10¢ per packet.

Bender's Surprise Muskmelon

OGNON

ONION

CIPOLLO

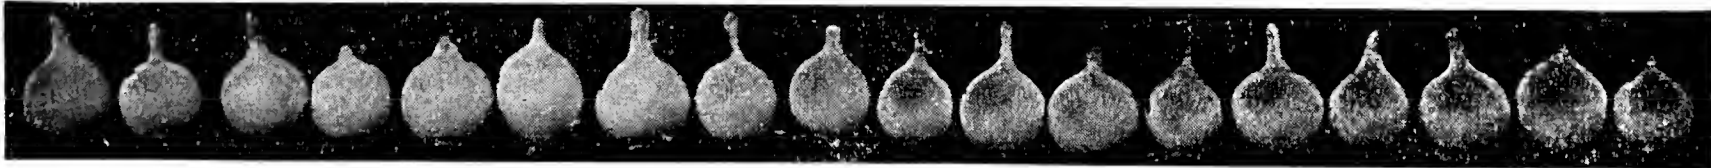

1 ounce to 125 feet; 5-6 lbs. per acre.

Hart's Onion Seed Always Germinates Better than 90%.

- Early Yellow Globe**—The finest extra early yellow. Extra early, truly enormous crops of fine globe-shaped, bright straw colored bulbs make this Onion the most popular variety introduced in recent years. Their thick skin does not shuck off in handling and keeps very well in storage. We handle only the originator's stock.
- Riverside Sweet Spanish**—These large, handsome, yellow Onions are not at all difficult to grow provided they are started early and well repay the extra time required. The bulbs often weigh a pound or more and have excellent storage qualities and are always very sweet and mild. Every Onion grower should devote a portion of his acreage to this profitable variety.
- (AAS) Yellow Valencia**—Very large, full globe-shaped, rather dark yellow Onions with heavy tops, and a thick outer skin for long keeping and resistance to thrips. When Onion prices are low this splendid variety commands peak prices.
- Golden Globe**—Mild in flavor and early, this handsome long keeping variety is ideal for both green and mature Onions. It is a very deep globe shape with a pleasing golden yellow color and has an exceptionally thick skin for long keeping qualities.

All Onion Seed 10¢ per packet.

	Oz.	1/4 lb.	1 lb.	10 lbs.
Golden Globe—Mild and an excellent keeper.....	\$0.20	\$0.60	\$2.00	\$19.00

POIS

PEAS

PISELLO

1 pound to 100 feet of drill; about two bushels per acre.

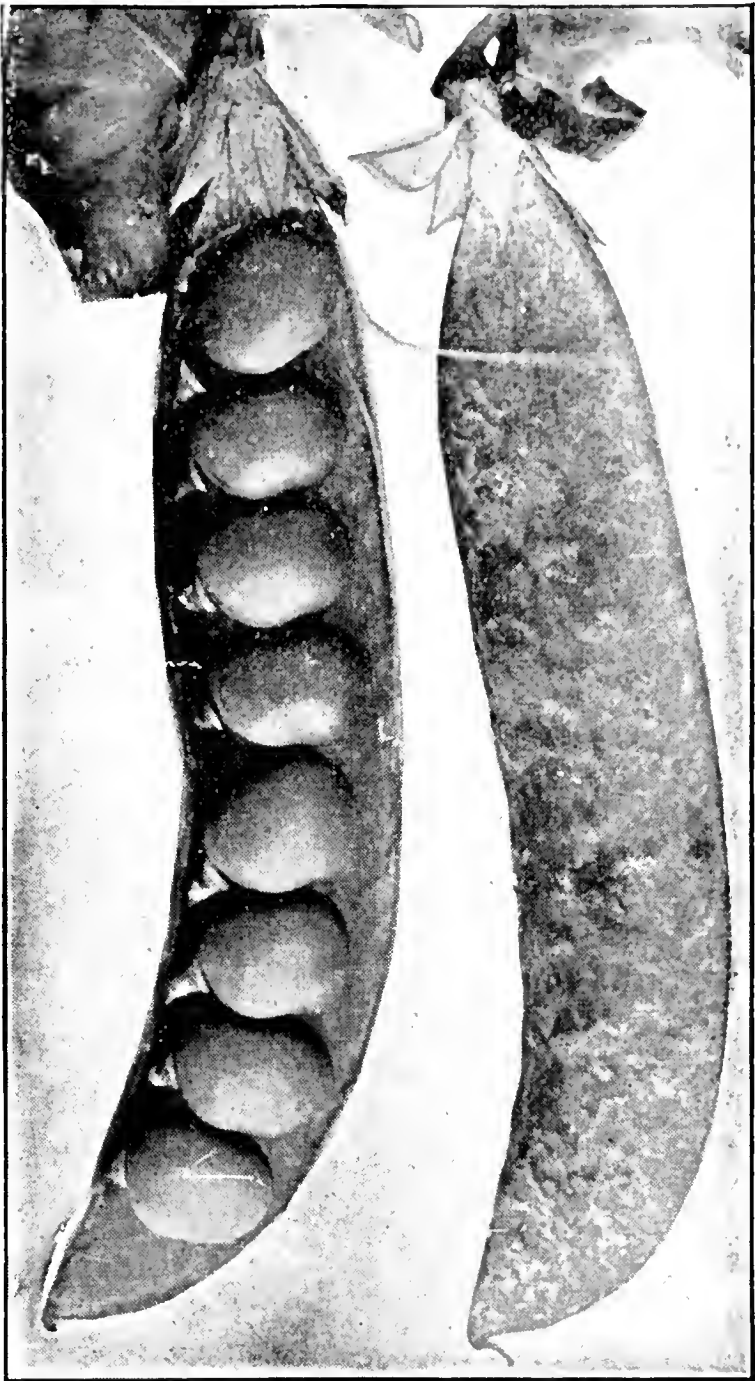

56 pounds to the bushel.

Over 25 pounds of one variety at the 100 pound rate. Peas are not shipped postpaid. If your entire order amounts to more than \$20.00, however, we will pay all transportation charges.

Roger's Gilbo—A wonderful new Mammoth Podded main crop. A midseason Pea producing immense pods on very dwarf straw. The yield is extremely heavy and the handsome dark green pointed pods are in our opinion superior in appearance to anything on the market. A trifle earlier and hardier than our New Deal.

New Deal—Our popular midseason variety. This desirable Pea needs no introduction to our old customers. Its large, deep green pods are borne on rich green dwarf vines and mature just after the very early varieties. Thus it catches the market at a time when prices are generally high. Its ability to stand hot, dry weather makes it perfect for late plantings. Do not, however, make plantings until the weather is fully settled.

World's Record—Probably the earliest large podded Pea under cultivation. At least our strain seems that way in comparison with many others we have seen. World's Record is the best money maker for the gardener and our prolific and heavy bearing strain is one of the finest on the market. You will make no mistake in planting World's Record.

Laxton's Progress Peas

Giant Hamper—The Ultimate in Peas. Mammoth pods 4½-5 inches long on dark heavy vines less than two feet high, maturing in 65 days or just the period of Laxton's Progress. This is without any exception the largest and heaviest yielding early Pea grown. Our supply is limited and we cannot offer more than 10 pounds to a customer.

All Peas 15¢ per ½ lb.; 25¢ per lb.; 45¢ per 2 lbs.

Improved Gradus —Early large podded Pea of high quality. Vines 2½ feet high.....	10 lbs.	25 lbs.	100 lbs.
Easy Money —Similar to Gradus but only 2 feet high.....	\$1.70	\$4.00	\$15.00
Nott's Excelsior —(Premier.) One of the finest early dwarf varieties. A heavy yielder of very high quality.....	1.80	4.25	16.00
Sutton's Excelsior —Larger Peas and Pods than in the Nott's type.....	1.70	4.00	15.00
Roger's Gilbo —Splendid new giant main crop.....	1.70	4.00	15.00
New Deal —Outstanding in popularity.....	1.80	4.25	16.00
Thomas Laxton —Very early with medium size pods of the highest quality	1.80	4.25	16.00
	1.70	4.00	15.00

	10 lbs.	25 lbs.	100 lbs.
Laxton's Progress —Large, handsome, well filled pods borne on vines 15 to 18 inches high, this Pea is most profitable to follow the extra early taller sorts. Our strain has been very carefully rogued	\$1.80	\$4.25	\$16.00
Hundredfold —(Improved Blue Bantam and Laxtonian.) The best Pea in the so-called Laxtonian or early dwarf type. The 4 inch pods are a deep blue-green in color and are borne on vines about 18 inches high. This Pea is an extremely heavy yielder and produces an immense quantity of very uniform pods.....	1.70	4.00	15.00
Little Marvel —A very prolific Pea of extremely high table quality. The Peas and pods are somewhat small, but a tremendous amount of pods may be harvested from only a short row. The pods are borne in pairs.....	1.70	4.00	15.00
Worlds Record —The market growers standby.....	1.70	4.00	15.00
Giant Hamper —Largest, heaviest yielding and earliest dwarf Pea. 1/2 lb. 20¢; 1 lb. 35¢; 2 lbs. 65¢.....	1.85	4.75	18.00
Dwarf Alderman —(Superior to Dwarf Telephone.) One of the finest large podded dwarf varieties the pods being borne in great profusion on strong and sturdy vines about 2 feet high. A very attractive variety which commands good prices on the midseason market	1.70	4.00	15.00
Improved Dark Podded Telephone —(Alderman Type.) Tremendous pods growing nearly 6 inches long on tall vines. This is the finest of all Peas and although it requires support will outyield all others.....	1.70	4.00	15.00

Persil

PARSLEY

Prezzemolo

1 oz. to 150 feet.

PIMENT

PEPPER

PEPERONE

1 oz. produces 1500 plants.

Our Pepper Seed is Northern Grown and Very Productive.

California Wonder

yields of fine dark green fruits even in short seasoned localities and we recommend it to your attention.

Large Ruby King Selected—Plants early, hardy and productive with thick, tapering, bright ruby-red fruits. This old favorite is still one of the most profitable varieties. Our strain is very carefully selected.

(AAS) Rocky Ford—A hybrid of California Wonder and Worldbeater, earlier than Wonder and thicker walled and heavier than Worldbeater. The fruits are about 3 x 5 inches, blocky, with square shoulders, very uniform, with thick walls and sweet flesh. Its size, earliness and appearance should earn it a place on every grower's list.

(AAS) Asgrow King—Extremely early and very heavy yielding this fine Pepper produces fruits 5¼ x 3½ inches, an elongated Ruby King type, broad, four lobed and tapering with unusually thick walls and sweet flesh.

(AAS) Windsor A—A new Pepper of unusual merit. A remarkable new Pepper developed by Dr. Curtis of the Connecticut Experimental Station with the shape and size of Ruby King, plus the thick walls of the California Wonder and a lighter and more attractive green in color. The yield is truly enormous, and although not the earliest Pepper grown, it will over a short period outyield any other variety. Our seed is grown only from the Station stock.

California Wonder—Largest of All. Mammoth fruits sometimes weighing a pound with very thick, meaty walls. Unusually solid and heavy, regular in shape, uniform in size and very high yielding. Our strain is very refined.

King of the North—Early, heavy yields. Immense size, earliness and heavy yields characterize this popular variety. It gives enormous

All Peppers 10¢ per packet.

	Oz.	¼ lb.	1 lb.
Windsor A —The heaviest yielder.....	\$0.50	\$1.75	\$6.00
California Wonder —The largest Pepper.....	.40	1.25	4.00

Asgrow King —Finest of the early elongated sorts.....	.50	1.75	5.00

RADIS

RADISH

RAVANELLO

1 ounce to 100 feet of drill.

(AAS) **Glowing Ball**—Most attractive Radish grown. Bright, fiery, scarlet-red with a suffusion of orange, this Radish presents the most eye-filling appearance imaginable. It is a perfect round shape, with a small top and a thread-like tap root. Bunches of these handsome roots sell on sight.

Early Scarlet Globe—Special selection. Our strain of this superfine variety is from transplanted roots only and is a true olive-shape with a beautiful bright scarlet color, small-topped, early and uniform. Our seed is strong and rapid growing.

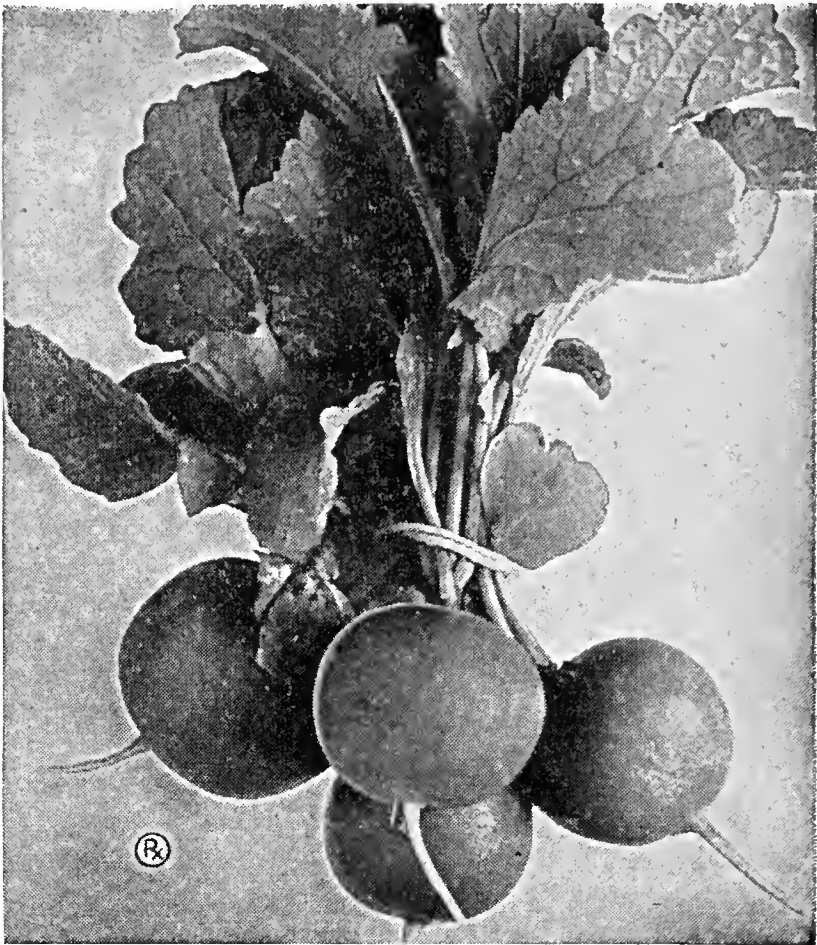

(AAS) **Billiard Ball**—The only absolutely round red Radish, a perfect ball shape and a very bright red in color. Very popular for forcing.

(AAS) **Jewel**—A very uniform, blunt-ended, red French Breakfast type without the white tip. This fine crisp Radish grows very uniformly and is never pithy or corky even when grown to a large size.

(AAS) **Comet**—A nearly true ball shaped root of the Scarlet Globe type although round instead of olive-shaped but vastly superior in quality. The color is a bright scarlet with small tap roots and a moderate top and actually remains crisp and solid when all other Radishes have become old and pithy. Actually it may be allowed to grow to a much larger size than any other sort.

(AAS) **Cavalier**—The best forcing Radish on the market. A bright Scarlet Globe, extremely early with small roots and tops, this is a wonderful strain for greenhouse and muck growing. It also possesses long standing qualities which Scarlet Globe lacks.

Radish Seed 10¢ per ounce; 25¢ per ¼ lb.

Saxa Radish

	1 lb.	10 lbs.	100 lbs.
Glowing Ball—Most unusual and attractive color.....	\$0.75	\$7.00	\$65.00
Early Scarlet Globe Special—A super-fine selection.....	.65	6.00	50.00
French Breakfast—Half long Scarlet, white tipped.....	.65	6.00	50.00
White Tipped Scarlet or Sparkler—Round, scarlet with a white tip. Best forcing strain.....	.65	6.00	50.00
White Icicle—Short tops, smooth, clear white mild-flavored roots.....	.65	6.00	50.00
Round Black Spanish—Round, deep black, turnip-shaped roots for winter storage.....	.65	6.00	
Giant White Stuttgart—Top shaped root, very large.....	.75	7.00	
White Straburg—Long, thick roots.....	.75	7.00	
Billiard Ball—Best globe shape.....	.80	7.50	70.00
Jewel—A pure red French Breakfast type.....	.80	7.50	70.00
Comet—Holds its crispness and solidity longer than any sort.....	.85	8.00	75.00
Cavalier—Olive shaped and bright red with long standing characters85	8.00	75.00
(AAS) White Pearl—Large round roots of a perfectly clear white color and a very thin tap root. The tops are much smaller than on any other type and are well adapted for growing under sash. The flesh is always crisp, snappy and juicy.....	.85	8.00	75.00

EPINARD

SPINACH

SPINACE

Old Dominion Spinach

Blight Resistant Savoy—True Strain. We at last offer a Blight Resistant strain which is fully as curled and crumpled as Reselected Savoy and will stand as well as Old Dominion. Hitherto, most strains have contained a high percentage of "smooth" leaves. Ours is practically 100% Savoy.

(AAS) Viking—Quite the finest of the Nobel or Viroflay types with giant dark green leaves of excellent quality even when at full size. It has longer standing qualities than the older types and gives the most enormous yields of smooth leaves of any Spinach known.

(AAS) Darkie—A superior King of Denmark type with smooth, thick, intense dark green leaves. It is very hardy and highly preferable for winter use.

All Spinach 10¢ per ounce; 15¢ per ¼ lb.; 30¢ per lb.

	5 lbs.	10 lbs.	100 lbs.	500 lbs.
Special Summer Savoy —Best for late spring sowing.....	\$1.15	\$2.25	\$20.00	\$90.00
Winter Giant —Best smooth leaf for late fall.....	1.15	2.25	21.00	100.00
Aristocrat —Deepest green and most densely crumpled	1.25	2.25	20.00	90.00
Blight Resistant Savoy —100% Savoy type and highly resistant	1.10	2.00	18.00	80.00
Early Reselected Savoy —Very early and of fine color. Our strain is extremely well bred with a high percentage of female plants.....	1.00	1.90	17.00	80.00
Long Standing Savoy —Best for spring sowing. A trifle later than Reselected, but with higher non-bolting qualities. We have a very high class strain.....	1.10	2.00	18.00	80.00
Old Dominion —Most highly resistant. Thick, bluish-green leaves which stand for an extremely long time before seeding. Excellent for fall sowing.....	1.15	2.10	19.00	90.00
King of Denmark —Large, round, somewhat blistered leaves which remain in good condition a week after any other variety.....	1.00	1.90	17.00	80.00
Viking —A long standing, heavy yielding Nobel or Viroflay type	1.30	2.40	22.00	100.00
Darkie —The finest of the King of Denmark sorts. Ideal for winter	1.30	2.40	22.00	100.00
(AAS) Resisto —A splendid hardy winter type with large broad leaves of deepest green. Highly resistant	1.75	2.25	20.00	90.00
Gaudry —Fully as early as any smooth leaved spinach known but far ahead in long standing qualities. The leaves are very large, broad and thick.....	1.15	2.25	20.00	90.00
New Zealand —Not a true Spinach, for the leaves may be picked and they will grow out again.....	Oz. 1/4 lb.	1 lb.	10 lbs.	
	\$0.10	\$0.20	\$0.45	\$4.00

1 ounce to 100 feet of drill;
10 to 12 pounds per acre.

(AAS) Special Summer Savoy—Very dark green and long standing. An extraordinary strain of very deep green Savoy, 3 to 4 days longer standing than any other type which grows remarkably even. For growers who cut during July and August this is outstanding. For the most discriminating grower.

(AAS) Winter Giant—For Late Fall. A smooth, extremely large leaved Spinach which does not bolt quickly and is at the head of the smooth-leaved list. Originator's stock.

(AAS) Aristocrat (Number 5 Selection F)—The deepest green and most densely crumpled Savoy. This largest, deepest green and most densely crumpled Savoy type is extremely productive, yet will stand for a long time before bolting. The most attractive Spinach grown. We offer a true strain.

COURGE

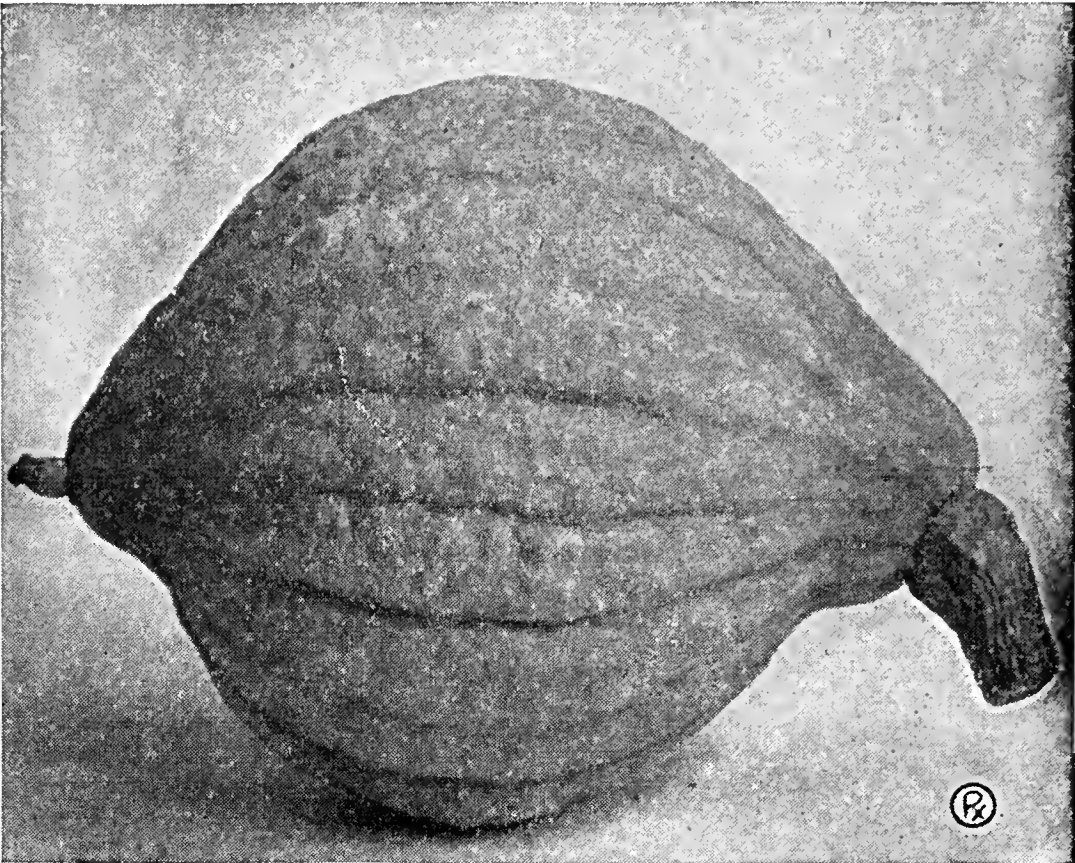

SQUASH

ZUCCA

1 ounce to 15 or 20 hills; 3-4 pounds per acre.

(AAS) Connecticut Straight-neck — A superlative strain. Over 95% true straight necks very thick and free from tapering. The color is a light creamy lemon-yellow and is entirely free from warts and disfigurements. This fine strain is very early and has been selected to meet every requirement of the most exacting gardener. A true money-maker.

Blue Hubbard — Favorite New England Strain. Our Blue Hubbard is the desirable slate-gray so highly prized in Massachusetts. The hard shell makes it the finest winter keeper of all winter Squashes. Our seed is grown in New England and is as pure a type as we have ever seen.

Blue Hubbard Squash

Warren's Turban—(Essex Hybrid.) Another New England strain of superlative quality. Very early warted fruits with rich orange flesh of the highest quality. Folks who have never tried this fine Squash should ask the opinion of residents of the "North Shore" about it.

(AAS) Early Prolific Straightneck—The peak of perfection for summer Squash. The straight, smooth delicate creamy colored squashes are borne in profusion on bushy, compact plants and may be used when only 4 or 5 inches long. It is earlier, smaller and more productive than any other Straightneck.

(AAS) Golden Table Queen—Resembles the regular Table Queen but is slightly larger and a beautiful deep golden color and the flesh is thick, dry and of fine texture. It is a long keeper and very prolific and makes an extremely handsome appearance.

All Squash 10¢ per packet; 15¢ per ounce.

WINTER SQUASH

	1/4 lb.	1 lb.	10 lbs.
Blue Hubbard —A very fine selection.....	\$0.45	\$1.50	\$13.50

Italian Vegetable Marrow —(Cocozelle.) Long, mottled dark green fruits of surpassing flavor. We have an excellent strain of this popular variety.....	.40	1.25	11.00
Early Prolific Straightneck —An early, bush type, producing smaller fruits than Lemon Straightneck.....	.45	1.50	14.00
Black Zucchini —Long, slender black fruits which are a great delicacy when picked young.....	.35	1.10	9.50

POMME D'ARMOUR

TOMATO

POMO D'ORO

1 ounce to 2000 plants.

Hart's Improved Stone Tomato

- New Rutgers**—Unusually large and solid. An exceptional variety developed by the New Jersey Experiment Station, being notable for its large size and solid structure, perfect globe shape, splendid flavor and deep red color throughout. It ripens about the same time as Marglobe and produces a tremendous amount of fruit. The vine is heavy with large leaves which protect it from sun scald. We offer originator's strain.
- (AAS) The Pritchard or Scarlet Topper**—The deep globe shape and early ripening period of this fine variety coupled with its freedom from cracking, solid structure and brilliant red color make it one of the most desirable ever introduced.
- Special Bonny Best**—For those who demand a superstrain of this popular early variety we offer this strain of seed from crown set fruit only. Seed is saved only from those plants which show the greatest vigor and earliness. This means seed of pure parentage, high germination and vigorous growth.
- Extra Marglobe**—This superior strain produces enormous yields of perfect shaped, large, fancy fruits, earlier than any other strain of ordinary Marglobe.
- (AAS) Cardinal**—A long awaited introduction, an early Stone type, which is not only very early but is large fruited and highly productive. A rich scarlet in color.
- (AAS) Scarlet Dawn**—The earliest, wilt-resistant, globe-shaped variety and a heavy bearer of medium-sized, meaty, scarlet fruits. Useful for all purposes and a valuable addition to the early Tomato list.
- (AAS) Penn. State**—An excellent Earliana type with small, compact vines heavily set with globular, rich scarlet, perfectly shaped, evenly-colored, rich scarlet fruits, unusually free from blemishes.
- (AAS) Mingold**—An early, heavy fruiting, yellow Tomato, the season of Bonney Best and the shape and size of Marglobe. The fruits are firm and solid and are free from the acid disliked by many in the red varieties.

All Tomato Seed 10¢ per packet.

Our Ruta Bagas always command higher prices.....	\$0.10	\$0.25	\$0.75	\$7.00
Macomber —The quality Ruta Baga. The finest white fleshed Ruta Baga on the market. Our strain was originally obtained in Eastern Massachusetts where this exceptionally sweet and mild variety was first introduced. The roots are a purple-white, nearly round and very smooth and we consider it the most refined type of Ruta Baga ever offered.....	.10	.40	1.30	12.50
Canadian Gem —This famous strain is also known as the "Canadien" or "Prince Edward Island" and is the true, hard solid Ruta Baga with a bright yellow skin and purple shoulders. It will out-yeild and out-keep any other variety. Its table qualities are unsurpassed.....	.10	.50	1.75	16.00

MELON D'EAU

WATERMELON

MELONE D'AQUA

1 oz. to 20 hills; 3 to 4 pounds per acre.

Stone Mountain—Best for market. A large, round, blocky melon. Very sweet scarlet flesh with few seeds.

Wondermelon—**Heaviest Bearer.** Long, thick melons with glossy green skin and deep scarlet flesh, very sweet and juicy. One of the most prolific of all melons.

Harris Early—No other melon will mature as early as this splendid round, sweet and juicy variety which is unexcelled for growing in short-seasoned areas. Its quality is the equal of longer maturing melons and although somewhat smaller it will produce an abundance of fruits even where frosts are early.

All Watermelon 10¢ per ounce.

	1/4 lb.	1 lb.

Harris Early —The short season melon of high quality and flavor.....	.35	1.00

NODOGEN INOCULATION

For Legume Crops. The cheapest and easiest way of improving crops and soil.

The Legume crops when not inoculated rob the soil; inoculated with the right bacteria, they feed the soil, grow more vigorously and contain a higher percentage of valuable feed proteins.

Nod-O-Gen Easiest and Surest Form of Inoculation

Nod-O-Gen is a scientific pure culture of root nodule bacteria, prepared on special food jelly in bottles with patent stoppers which permit the bacteria to live and breathe and maintain their vigor. Each culture contains plenty of bacteria to inoculate the quantity of seed marked on the bottle. The cost per acre is very small.

Moreover, Nod-O-Gen is easiest inoculation to use, requiring no equipment or experience. Takes only a few minutes. Complete directions on every bottle. Results are sure.

Prices for Nod-O-Gen

For Alfalfa, Sweet Clover, Red Clover and other Clovers (specify which):

1/2 bu. size \$0.35

1 bu. size60

For Soy Beans, Cow Peas, Field Peas and Beans and Vetches (specify which):

For Garden Peas, Sweet Peas, Garden Beans and Limas:

Garden size \$0.20

Always specify names of crop as well as size of culture wanted.

FIELD AND FARM SEEDS AND GRASSES

In buying grass seeds from us you may be sure that you will receive seeds of the highest possible analysis.

Owing to variation in market values on grass seeds we are not always able, at the time this catalog is printed, to make fixed prices, but we will guarantee that our prices will, at all times, be as low as the market permits. We will be glad, however, to quote prices at any time on any quantity, and invite your correspondence.

ENSILAGE CORN

Hart's Hybrid Sweepstakes—A splendid new Hybrid combining the mammoth growth of the largest Ensilage Corn with the early maturity and large grain yield of Sweepstakes. Wonderful for silage or husking, it produces immense ears with large, deep, reddish kernels on fodder over 14 feet high and will produce more dry matter of a higher protein content than any other variety.

Katocross—A remarkable new cross bearing the same relationship to open-pollinated Ensilage Corn that hybrid Sweet Corns bear to older varieties. It is a cross of Sweepstakes inbred on the well-known Kato and produces the most enormous yield of heavy, well-formed ears of any variety as well as a remarkable cut of heavy, thick fodder. No other Corn will give the yield of both ears and ensilage on twice the acreage.

	Bu.	2 Bu. Bag	10 Bu.

STANLEY'S CROW REPELLENT

The Standard for over 20 years

Protect your seed corn during the period when it is most easily damaged by ridding your crop of crows and other corn-pulling birds and animals. It saves loss of seed and labor of replanting. It positively will not clog any planter. It is non-poisonous and will not injure the seed or any kind of corn. It is more effective, more convenient to use, and more economical than any other material.

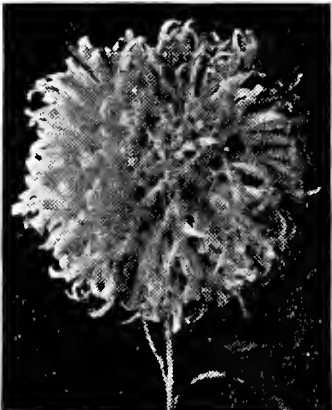

1 Qt. Enough for 4 bushels of seed.....	\$1.75
1 Pt. Enough for 2 bushels of seed.....	1.00
1/2 Pt. Enough for 1 bushel of seed.....	.60

HART'S FLOWER SEEDS

If you grow plants or cut flowers for profit or if you grow flowers only for pleasure, you will find our strains the most satisfactory you can use. Our flower seed is, in every case, grown for us by specialists and has been pre-tested for germination and vitality. We send out nothing until we are fully confident it will give the desired results.

Remember — You cannot grow good crops from poor seeds.

(1/4 lb. sold at three times the ounce rate.)

Aster—American Branching Aster—California Giant

(AAS) WILT RESISTANT ASTERS EASY TO GROW AND SURE TO PLEASE.

QUEEN OF THE MARKET

The standard early variety. Very free flowering.

CONNECTICUT LAWN SEED GRADES

The State of Connecticut has, after deep investigation, established recommended Lawn Seed formulae which are designed primarily to inform the buying public so that they may know what they are getting in buying Lawn Seed. Most purchasers are at the mercy of the seller in buying seed. The average individual cannot inform himself as to the quality of a seed blend nor can he be sure ever, that he is getting his money's worth.

We have registered our blends with the State Agricultural Department and are pleased to offer the following:

GOLD SEAL (Highest Quality)

Greendale — Contains Kentucky Blue Grass, Fancy Red Top, and White Dutch Clover. Inert Matter only 2.86%, Weeds 0.3%.

Standish Park—Contains Kentucky Blue Grass, Colonial Bent, and Fancy Red Top. Inert Matter only 1.48%, Weeds 0.3%.

Splendor—Contains Kentucky Blue Grass, Chewings Fescue, Colonial Bent and Fancy Red Top. Inert Matter only 2.38%, Weeds 0.3%.

Special Bent Formula—Contains Astoria Bent, Chewings Fescue, Fancy Red Top and Kentucky Blue Grass. Inert Matter only 3.06%, Weeds 0.3%.

Deep Shade Blend—Contains Sheeps Fescue, Poa Trivialis, Kentucky Blue Grass and Fancy Red Top. Inert Matter only 4.58%, Weeds 0.3%.

REGULAR BLENDS (Not State Sealed)

Elm Tree—Contains Kentucky Blue Grass, Fancy Red Top, Domestic Rye Grass, White Dutch Clover. Inert Matter 5.18%, Weeds 0.31%.

Shady Place—Contains Poa Trivialis, Kentucky Blue Grass, Fancy Red Top, Domestic Rye Grass. Inert Matter 3.7%, Weeds 0.25%.

Evergreen — Contains Kentucky Blue Grass, Fancy Red Top, Domestic Rye Grass, White Dutch Clover. Inert Matter 8.75%, Weeds 0.66%.

Terrace Sod — Contains Canada Blue Grass, Hard Fescue, and Domestic Rye Grass. Inert Matter 7.85%, Weeds 0.53%.

Poor or Sandy Soils Blend — Contains Hard Fescue, Canada Blue Grass, Fancy Red Top, Domestic Rye Grass. Inert Matter 7.45%, Weeds 0.5%.

Shady Nook—Contains Poa Trivialis, Domestic Rye Grass, Kentucky Blue Grass, Fancy Red Top. Inert Matter 8.50%, Weeds 0.6%.
